

MASSACHUSETTS
HIGH TECHNOLOGY COUNCIL

Dedicated to Growth... Committed to Action

June 1, 2020

Compassion, Opportunity and Hope Are What We Need

The death of George Floyd is unconscionable. The actions of four law enforcement officers in Minnesota underscore the depth of the work in achieving racial equality that lies before us.

The Massachusetts High Technology Council stands in solidarity with all those raising their voices to advance equality for all and who insist on peaceful change in our world and in our neighborhoods.

We also condemn the acts of those who turned to violence across the nation and in Boston yesterday.

As a business organization, the Council has historically focused on supporting the creation and expansion of economic opportunity and the improved quality of life that benefits all residents of our Commonwealth.

How we treat each other is fundamental. Respect and compassion for each other are shared values that build strong relationships, organizations, and societies. "Love your neighbor as yourself." Mark 12:31.

The Council is confident in the knowledge that together--and only together--we can use our collective and individual experiences to harden our resolve, deepen our commitment and accelerate our work in pursuit of equality and opportunity for all.

Christopher Anderson, President
Massachusetts High Technology Council, Inc.

OUR MISSION

The Massachusetts High Technology Council is an organization of CEOs and senior executives representing technology companies, professional services firms, and academic and research institutions dedicated to creating and sustaining conditions that support investment and job growth in Massachusetts. Our members are growth-oriented, knowledge-intensive employers and institutions that develop, deliver and depend on technology products, services and innovations to advance their organizational objectives.

Our mission is to help make Massachusetts the world's most attractive place in which to live and work, and in which to create, operate, and grow high technology businesses.
