

As the Policy and Communications Coordinator, Olivia will support key communications and talent development projects, including our [Diversity, Equity and Opportunity Initiatives](#), and our public policy advocacy and agenda.

Originally from London, England, Olivia is in her third year at Northeastern University pursuing a Bachelor of Science degree in Political Science and Criminal Justice and a minor in Law and Public Policy.

We look forward to her contributions over the next six months to advance the Council's mission to make Massachusetts the world's most attractive place to live and work, and in which to create, operate, and grow high technology businesses.

## Bold Vision for Massachusetts' Future

The Council is proposing a collaboration between private, public, and academic leaders to generate bold ideas for Massachusetts' future called the **Future is Now**. The program, kicking off this year, will explore the most important trends in technology with leaders across various sectors and facets to determine their implications for the Commonwealth. Through this effort, supported by Knowledge Partner McKinsey & Company, we aim to answer critical questions regarding the State's future—from how we can harness this collaboration to transform technology, intelligence, and infrastructure breakthroughs into life-changing opportunities for residents, to becoming a clean tech powerhouse and inspire others to do the same. More information regarding the Future is Now will be announced later this month.

## OUR MISSION

The Massachusetts High Technology Council, Inc. is an organization of CEOs and senior executives representing technology companies, professional services firms, and research institutions who are dedicated to creating and sustaining conditions that support investment, job growth, and improved quality of life in Massachusetts. Our members are growth-oriented, knowledge-intensive employers and institutions that develop, deliver, and depend on technology products, services, and innovations to advance their organizational objectives—a definition that covers just about all business enterprises in Massachusetts today.

Our mission is to help make Massachusetts the world's most attractive place in which to live and work, and in which to create, operate, and grow high technology businesses.

For more information, [visit our website](#).
