Massachusetts High Technology Council Collaborates with the American Enterprise Institute to Launch Public Policy Series

The MassVision2050 Public Policy Series will feature top AEI experts examining critical policy issues impacting Massachusetts' innovation ecosystem.

Boston, MA (March 5, 2025) — The [Massachusetts High Technology Council](#) is proud to announce a collaboration with the [American Enterprise Institute \(AEI\)](#) to launch a Public Policy Series aligned with the priorities of [MassVision2050](#). This initiative will convene top policy experts to explore key challenges and opportunities shaping Massachusetts' innovation economy.

Building on the success of the High Tech Council's 2024 Annual Meeting—where AEI Senior Fellow Will Rinehart delivered a compelling presentation on state-level AI regulation and its impact on national policy—this series will bring esteemed AEI scholars to engage with Massachusetts business leaders on pressing policy issues. Each event will feature expert insights, interactive discussions, and networking opportunities over cocktails.

We are pleased to announce that **Empower CEO Robert Reynolds** will host the inaugural program on **Tuesday, April 29, 2025**. The program will feature AEI tax policy experts **Alex Brill** and **Kyle Pomerleau**, who will provide key insights into the latest federal tax policy developments and their implications for businesses and economic growth.

High Tech Council members are invited to sponsor this exclusive series, supporting efforts to deepen understanding of policies that impact the Commonwealth's economic future.

For more information on sponsorship opportunities and event details, please contact Sarah Anderson Brunelle at sarah@mhtc.org.

About the Massachusetts High Technology Council

The [Massachusetts High Technology Council, Inc.](#) is an organization of CEOs and senior executives representing innovation, technology, and scientific companies, professional services firms, and research institutions who are dedicated to creating and sustaining conditions that support investment, job growth, and improved quality of life in Massachusetts. Our members are growth-oriented, knowledge-intensive employers and institutions that develop, deliver, and depend on technology products, services, and innovations to advance their organizational objectives—a definition that covers just about

all business enterprises in Massachusetts today. Our mission is to help make Massachusetts the world's most attractive place to live and work, and in which to create, operate, and grow businesses within the innovation ecosystem.

About the American Enterprise Institute

The [American Enterprise Institute](#) is a public policy think tank dedicated to defending human dignity, expanding human potential, and advancing a freer, safer world. AEI scholars conduct research and analysis on government, economics, and societal issues to inform sound public policy.

About MassVision2050

Spearheaded by the Massachusetts High Technology Council, [MassVision2050](#) is a bold, multi-year initiative designed to secure Massachusetts' leadership in innovation and economic opportunity. By anticipating future trends and fostering collaboration across private, public, and academic sectors, MassVision2050 lays the groundwork for sustainable growth, increased social mobility, and a thriving economy.
